Additional District Information

The Northern Kentucky district determination was *Needs Assistance* for the fifth consecutive year. Due to the longstanding low performance the district determination was reduced to *Needs Intervention*.

Indicators 1, 7 and 8 are compliance indicators. The target is set by the Office of Special Education Programs (OSEP). The identified noncompliance for Indicators 1, 7 and 8C was corrected within three months of the notification of the finding.

Indicators 2, 3, 4, 5 and 6 are performance indicators. These are a measure of the districts overall performance in several key areas. The targets were set during the development of the State Performance Plan (SPP).

For Indicator 3, there were a total of 2033 children with two data points in the Kentucky Early Childhood Data System (KEDS) statewide. A total of 257 were from the Northern Kentucky district.

For Indicator 4, there were a total of 5352 family surveys distributed statewide. A total of 669 were sent to families in the Northern Kentucky district. Of these, 250 were completed for a return rate of 37.36%.

A determination of *Needs Assistance 5 (Needs Intervention)* means that the district must continue to seek out targeted technical assistance and training resources on topics specific to the areas of noncompliance. This may include on-site technical assistance visits and monthly monitoring calls with the Point of Entry Manager and other key stakeholders.
